Labs

Phonetics lab

- High-quality sound recordings
- Listening (e.g., artificial grammar learning)
- Self-paced reading

Flexlab

- Video recordings
- Exposure to stimuli in a learning phase

Adult eye-tracking lab

- Visual world, reading

Baby eye-tracking lab

- Visual fixation, visual preference

Biosignal lab

- EEG, fEMG, GSR

Baby EEG lab

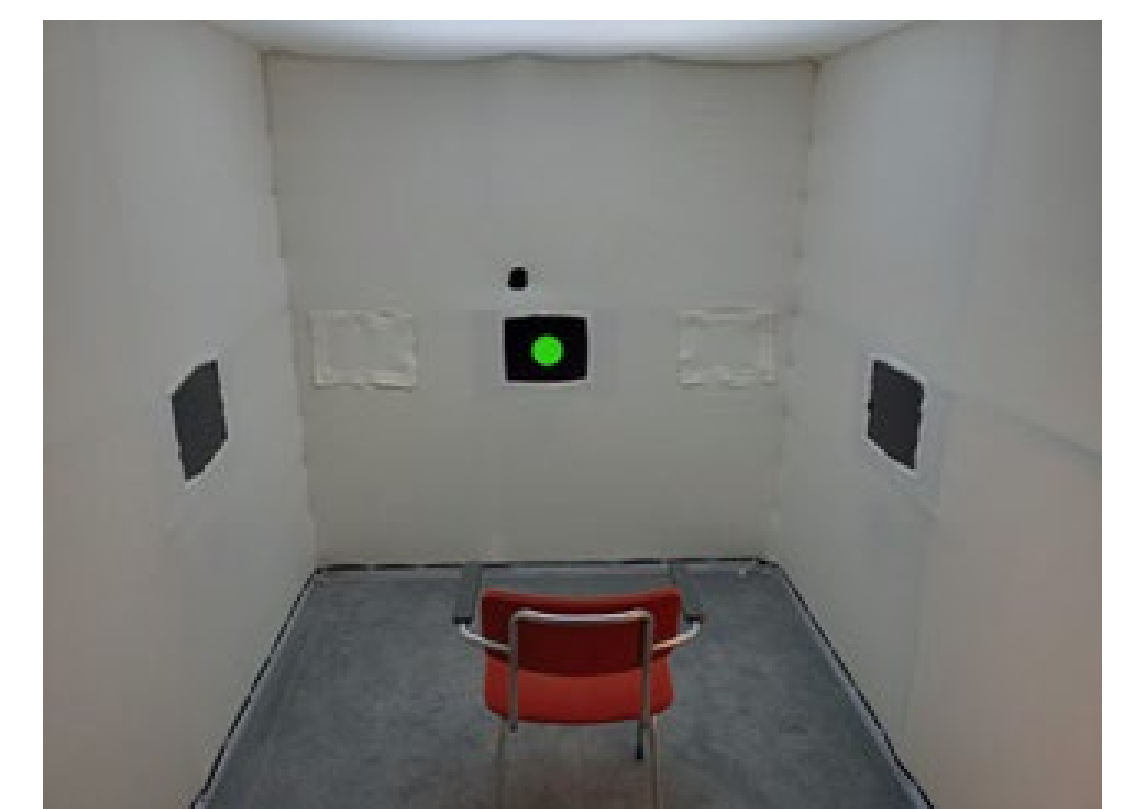

Babylab

- Head turn preference
- Visual fixation

Practicum/community room

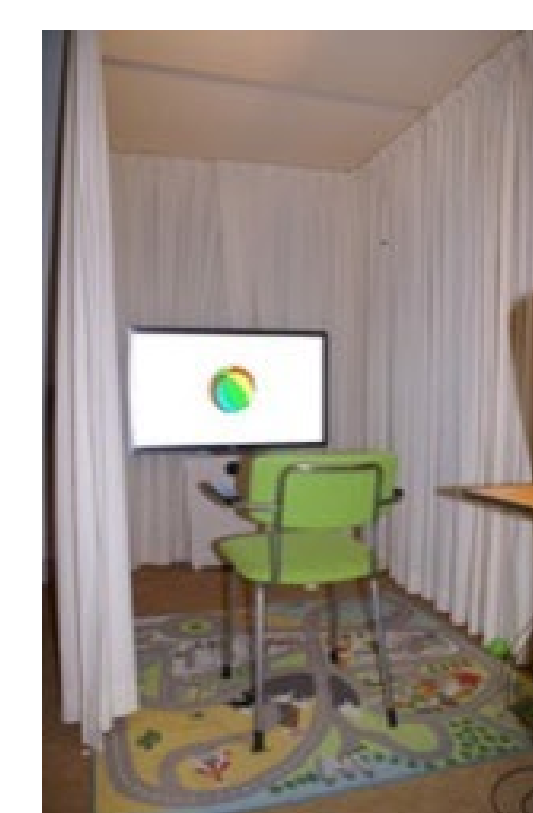

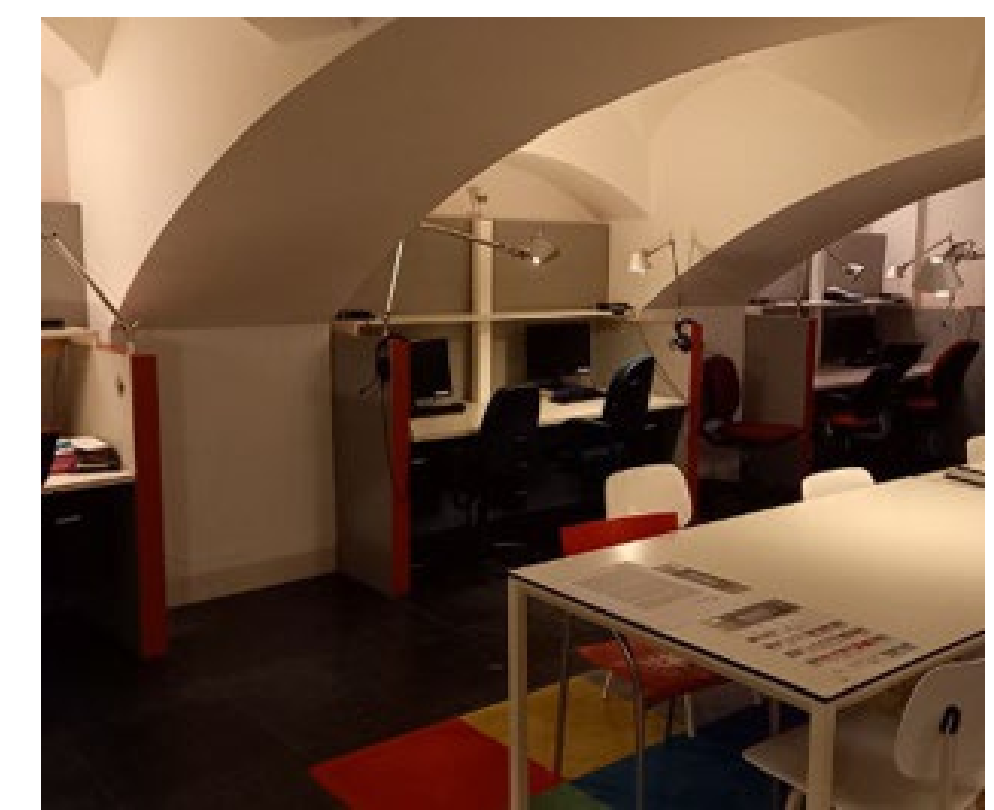

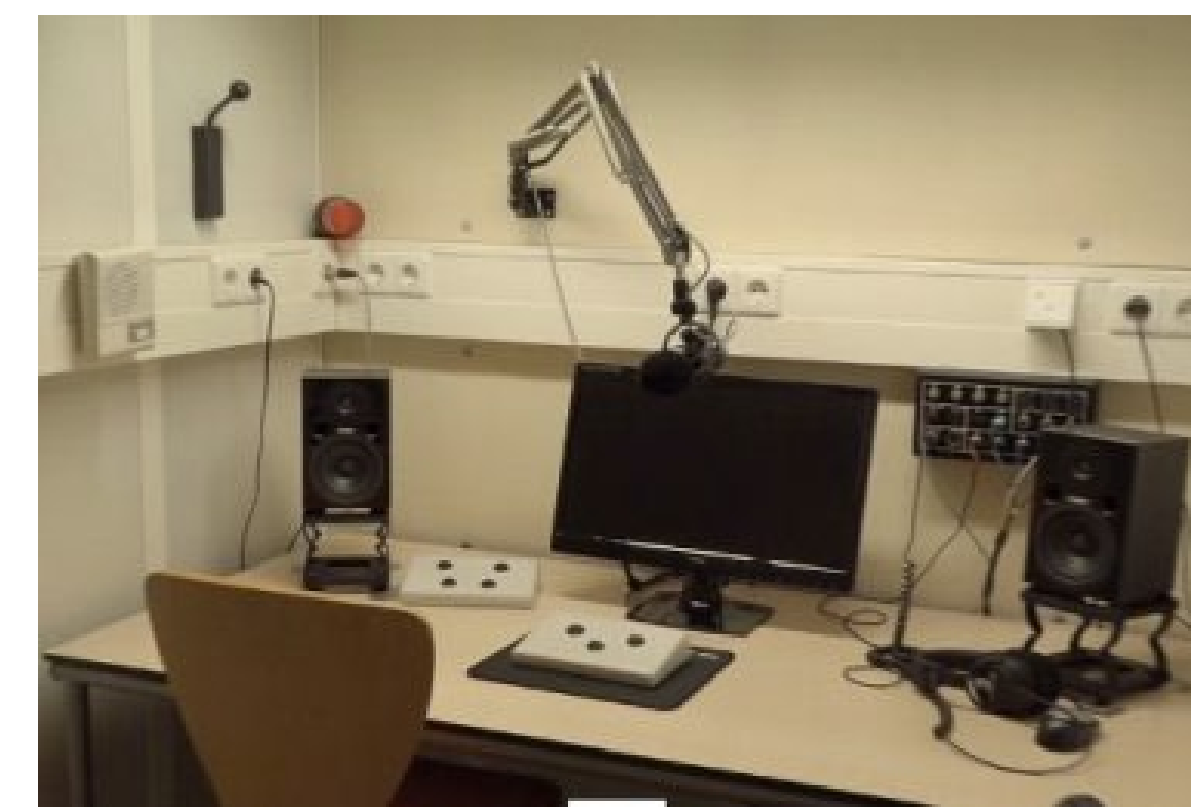

Lendables

audio, video, mobile eyetracker, nexus for biomeasures, experiment laptops, USB drives, standardized tests

For whom

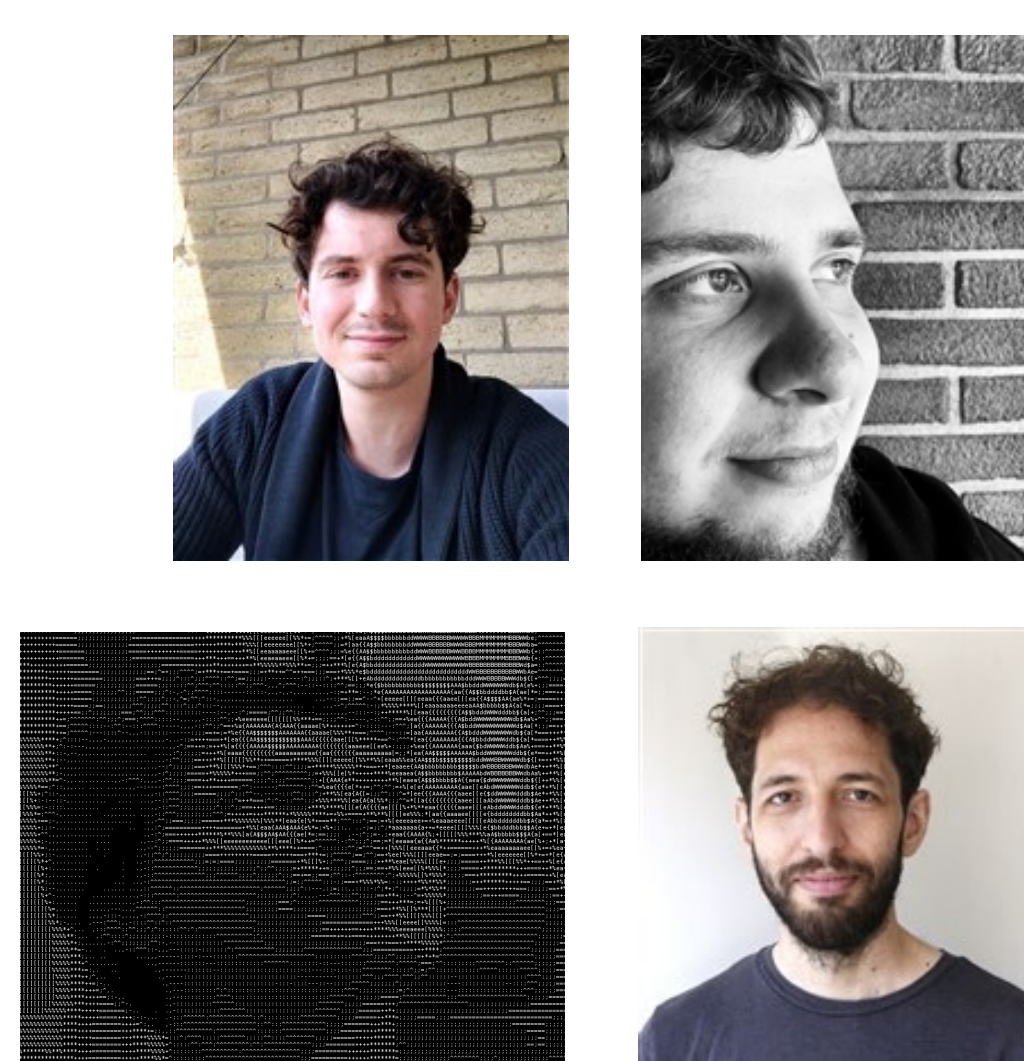

- Primarily for ILS researchers
- BA/(R)MA student research in courses, internships and theses: possible only when fully supervised by ILS-affiliated faculty member or postdoc
- ILS lab support provides training and consultation on experimentation and analysis to ILS faculty, postdocs and PhD candidates → we teach the supervisors!

Team

Experiment programming (both lab and online experiments), technical support, lendable equipment for fieldwork

- Maarten Duijndam
- Ty Mees
- Ben Bonfil
- Michael Villeneuve

Coordination and staff training

- Iris Mulders: general & eye-tracking lab manager
- Desiree Capel: babylab manager / psych test licenses
- Charlotte Koevoets: babylab assistant
- Marijn Struiksma: biolab manager
- Kirsten Schutter: statistics
